

PRODUCT DATA

DUNE

DUNE

TECHNICAL SPECIFICATIONS

Surface: Material made from 50 % polyester (100 % recycled) and 50 % polypropylene
Back: 100 % nitrile rubber with recycled content
Height: 8 mm
Weight: 3.20 kg/sqm
Border: without visible rubber border

Customs tariff number: 56031490
Recycled Materials

SIZES AND WEIGHTS

- 45 x 75 cm ≈ 1.08 kg
- 60 x 90 cm ≈ 1.728 kg
- 55 x 85 cm ≈ 1.26 kg

All weights are approximate weights.
Please note our size and colour tolerance of +/- 3 %.

CARE

To remove coarse and dry dirt, the doormat can simply be shaken or brushed off. Heavy dirt can also be cleaned off the mat with a garden hose and water (please do not use a high-pressure cleaner).

After cleaning with water, it is best to lay the mat flat in a warm place to dry. The mat can absorb a lot of water yet is quick drying.

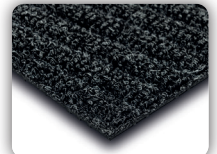

Besides shaking it out, you can also vacuum it regularly using a smooth nozzle. This removes dirt and dust, and keeps the mat clean and functional. This level of care is sufficient for everyday use.

If the mat should become very dirty, it can be machine washed at max. 40 °C. Use a mild detergent and spin the mat at a low speed. Once washed, lay the mat out flat to dry. Machine wash the mat once a year to maintain the rubber and to avoid dark abrasions to the surface.

PROPERTIES

- Suitable for outdoor and indoor use
- Traps moisture and dirt perfectly
- Rain drains off well through the deep grooves
- Manufactured with a proportion of recycled materials
- Interesting 3-D surface structure
- Durable and hard-wearing
- Mottled surface hides trapped dirt well
- 2-year guarantee
- Made in Europe
- Modern design
- Lightfast colours
- Non-slip
- 100 % PVC-free
- Manufactured according to ISO 14001:2015

Corner detail

Back detail

In the case of PVC, linoleum, laminate and wooden floors, discolouration may occur due to a reaction with rubber-coated mats.
