CARE

Before first use, wash your wash+dry Design mat separately according to the care label at 60 °C and mild detergent. This straightens the fibres, activates the mat pile and smooths out any creases and folds caused by transport. Spin the mat on a low setting with approx. 800 revolutions.

Put the mat in the dryer and select the „Easy care“ or „Mixed fabric“ programme.

As an alternative to the dryer, you can also lay the mat out flat to dry. Please note the respective maximum load of your electrical appliances. Clean your wash+dry doormat 3 to 4 times a year (or more often if it is heavily used).
